To the residents of Martinsburg, we have been working diligently with county and state officials in preparing for any issues that would arise in the Borough of Martinsburg concerning COVID-19, that is sweeping across this great nation of ours. We would ask that you check on each other from time to time, whether it be by phone, text message, Facebook or a knock on the door, although remember to practice **social distancing**.

If the need should arise that we would need help in distributing food, water, or any other supplies etc., not just during these times of the COVID-19, but for any other issues that might come up throughout our community, we are asking for your help. Please fill out the questionnaire if you would be able, willing and in good health to help. With the closeness of this community, we will get through this; each day is one day closer to a bigger and brighter future.

Stay safe and God Bless.
